Nokia E52 RM-469 Sony Ericsson RM-469 - E52 - Mobile Internet. Nokia 1020 [Ngkw] Nokia Lumia 1320 [Rh-90] V7.8 / E52 [RM-868]. Nokia E52 [RM-469] (Firmware Update) Nokia E52 [RM-469] A: A successful rescue involves two steps. First step: copy all your backed up files to a new phone. Then connect the old phone to the computer to install the software. In this case, you need the "Nokia E52 [RM-469] firmware update file" zip and the Roms from this. Once you start the updater, the phone will be asked for the. As you have two phones, you need the update for both. When the installer finishes, both the old and new phone will have a new firmware. An important step here is to backup all the files from the old phone (i.e. the.SIM folder) to a secure backup device (e.g. a SD card). Then connect both phones to the computer. This step has two parts: 1) The phones need to be paired. You will need to follow the instructions of the phone manufacturer. 2) You need to uninstall any applications from the old phone that you don't want to install on the new phone. Now, you have two phones with a new firmware each. It's important to remember that the new phone has to be paired to the computer. Once you have this set up, the new phone can be used normally. After a while, the old phone will be paired (if not paired already) and will be notified that it can be switched over. If the switch over is successful, you will see a "welcome" message on the phone. In case you have the complete device, including the screen, you can restore your old files. Just follow the steps above. When the phone is switched over, the "welcome" message should appear. Then in the "Device details" you can access the "Settings" menu and tap "Restore". For recovery of files, you can use something like "Recover deleted files with Nokia PC Suite". There is a free edition of the suite that can be downloaded from the web. In the end, you will have three phones: the old phone, the new phone and the
