Your FIFA Ultimate Team™ of the future features 4K-graphics, while Shadow and lighting technology gives players and their physical likeness a greater sense of realism. The new Rush Soccer mode will give players that must-have touch of the ball more variety, with new spacial movements to unlock defensive and offensive moves, as well as new dash moves and anticipation. Players are equipped with an improved Jumping Collision System (JC), which is designed to restrict players that try to control the ball with an excessive amount of flick kicks. FUT Master League will introduce the International Friendlies Mode, giving you the chance to get your boots on and play with the best international stars in the biggest leagues around the world. FIFA 22 introduces "HyperMotion Technology," which uses motion capture data collected from 22 real-life players playing a complete, high-intensity football match in motion capture suits. The data collected from player movements, tackles, aerial duels and on-ball actions is used to power FIFA 22 gameplay.
