## What's New In?

---------------------------- OpenSaveFilesView, is a free-to-use utility, developed to give you all the power of a good file tracker in an elegant and efficient way. This amazing application not only lets you track all the files that you access using the Open or Save dialog boxes of Windows, but also save them to HTML, TXT, CSV or XML reports. In addition, it allows you to get a complete list of all the files that are currently open or saved, along with many other features that you might be interested in. OpenSaveFilesView Key features: - Track: If an application is closed, the files it has opened remain in your history list. - HTML: All the info is available in HTML format and allows you to export the list to a customized HTML report. - TXT: All the info is available in plain text and allows you to export the list to a customized TXT report. - CSV: All the info is available in comma-separated value format. - XML: All the info is available in XML format. OpenSaveFilesView is freeware! It's absolutely free. There is no trial version and no registration required. How to uninstall OpenSaveFilesView from your computer 1. Click on the Windows button Picture of the mouse. 2. Click on "Control Panel". 3. Click on the "Add or Remove Programs" option in the blue window that pops up. 4. A list of the programs installed on your computer will appear on the left. Scroll through the list, and look for the application "OpenSaveFilesView". 5. Click on the "Remove/Change" tab. 6. Click the "Remove/Change" button to remove OpenSaveFilesView from your PC. 7. Follow the onscreen steps to complete the removal process. 8. After the removal is completed, restart your PC. OpenSaveFilesView will add a new folder called "Open Save Files" to the default Windows\Preferences\FileTypes folder on your computer. This folder has two sub-folders: "Open Files" and "Save Files". The default view will also be available by default and will be by default open when a user double-clicks on an open file (in this case, a file in the "Open Files" folder), which is highly recommended (this default behavior can be disabled in the OpenSaveFilesView preferences). OpenSaveFiles
