Augmented Reality: “Augmented Reality” (AR) is a live, direct or indirect view of a physical, real-world environment whose elements are augmented by computer-generated sensory input such as sound, video, graphics or GPS data. AR allows users to see and interact with information overlaid on the real world, as long as their devices can see it. FIFA 22 features the first ever Augmented Reality (AR) demo at the FIFA World Cup. The AR demo shows fans what it would be like to be on the field, filling them in with real-world information and making them feel as though they’re in the final. Using AR, fans will experience World Cup-era features, such as goals scored, cards given and the ref’s decision on balls of the ball. Real-time comments from the fans will be scored and displayed through the scoring information panel. EA SPORTS will activate AR through phone-based Augmented Reality content, which will be the next step in the evolution of digital soccer. Augmented Reality will also be available in the Pro Clubs and Career modes. In Pro Clubs, the EA SPORTS Power Up will change appearance through AR and offer new features and rewards, such as new call-ups and offers from sponsors or EA SPORTS. In Career, the World Cup AR will allow players to compete in real-time at a World Cup in progress, interact with fans through AR and earn World Cup experience points. These points will be

used to acquire new players and improve the current roster, in addition to unlocking cards, such as Majors. The AR demo is supported on all Android phones and tablets running Android version 4.0 and above, and iOS 8.2 and above. Watch the FIFA 20 World Cup launched demo FIFA Live Showcase: In addition to the launch trailer, the FIFA 20 World Cup launched demo will be shown during the livestream of EA SPORTS FIFA 20 World Cup on ESPN on Tuesday, June 5 at 2 p.m. ET. Making of FIFA: An hour-long documentary will be shown at 3:30 p.m. ET at www.FIFA.com and www.thefifa.com/myfifa. The documentary will show the process behind the game, followed by behind-the-scenes footage and interviews. About FIFA 20: FIFA 20 will showcase

Fifa 22

FIFA is the world's best football game. It's a footy, a footy game. It's the game to play if you want to put your footy skills to the test. If you're not playing FIFA, who are you? FIFA is the most popular and market-leading footy game in the world. There's a FIFA for everyone – and everyone plays FIFA. Play it? Why not? What is FIFA Football? FIFA Football is a wholly owned FIFA franchise studio based on the widely popular FIFA series. With FIFA Football, you can take complete control of your footy career: play and manage in different ways to suit your style of play, choose your country, and play up to 18-vs-18 online or against the new AI-controlled FIFA Football Training Centre (FITC). What is FIFA World Cup? The FIFA World Cup™ is the biggest, most famous and prestigious football tournament in the world, contested by national sides from around the

world. A global competition, each country is represented by 16 players plus one captain. The World Cup takes place in the summer and is hosted by a country who has won it in the previous two seasons. The event is played in a variety of venues across the globe and takes place over an eight-week period with the final match held at a predetermined World Cup-hosting city. How do I play FIFA World Cup? You start your World Cup journey with the Group Stage. Starting off against the group leader, you are eventually ranked to reach the knock-out rounds, making it through to the semi-finals and the final. So play against the best teams in the world and win a spot at the FIFA World Cup Finals. The European Championship is not an official FIFA World Cup qualification tournament, but has been considered as a third-place game in recent years. Can I play as a goalkeeper? Yes, it's possible. Go to the FUT Draft page and select a goalkeeper. Your goalkeeper will play as a goalkeeper in the Ultimate Team and on FIFA Ultimate Team, with all the keeper attributes in place. You can then control the goalkeeper's shots and perform incredible saves. How many players can play in one game? Because FIFA Ultimate Team requires you to collect as many cards as possible, not all teams
