CyberLeader - Internet Cafe Software is a powerful, yet easy to use, Internet Cafe management and Billing software that will enable you to handle all of your business operations in a very efficient manner. It is a Windows based application. You will get a down-to-earth easy-to-use Windows client environment with its Windows-like fully customizable interface. The interface is very user-friendly and is simply customizable to your taste. You can easily edit its appearance and even place your own logo in the center. It is very easy to use even for rookies and is purely GUI interface, without any programming language. CyberLeader works perfectly with shared computers. It does not require any client-side modifications. Customer/stupidity/dork passwords are disabled, so your money stays safe and your customers will not be disturbed with unsolicited password attempts. CyberLeader can be customized to show the proper currency to the customers in whatever currency you want them to see. It also remembers their last choice, if they chose more than one currency. It is very easy to reach your targeted income and never be stuck with a low income due to bad paying or non paying customers. You can fine-tune it to your profit / cost targets. It is fully integrated with your Client, which means that you can virtually go to any other computer and make changes from anywhere. You can also remotely update and control multiple Clients at once. You can even lock a computer client for charging, so that even if it is locked there won't be a chance for a customer to steal from it! This can be an excellent feature for managing your Clients. The vast majority of Clients can also be updated from a remote location. In addition to all of these features, CyberLeader has a built-in full Point-of-Sale system that enables you to see exactly how much revenue you have gained. You can even disable automatic per-session billing and configure manual per-session billing, which will enable you to increase the quality of your service and also to enhance the appearance of your business. It is very easy to use CyberLeader and get yourself started with a single click. All important information is available for quick reference and when needed, you can quickly look at it! The interface is clean and extremely easy to work with. In addition to that, when you are on a sale, a prompt is not far away, so you can be sure of the number of people in your place and at the same time, know
